

I spy a tree at Fort Boykin

Using the Boy Scout markers, discover the different varieties of trees at Fort Boykin. Many were planted by previous owners, and others grew naturally.

Native trees without markers:

- Loblolly Pine
- American Holly
- White Oak

One plant that can be found at Fort Boykin is an invasive species. It gobbles up all the surrounding plants. It was planted unknowingly by the former owners of the fort.

- English Ivy

- Black Walnut
- Japanese Maple
- Red Maple
- Ginkgo
- Horse Chestnut
- Tulip Popular
- Hackberry
- Bitternut Hickory
- Chinese Parasol Tree
- Chinese Data Jujube
